# Frequently Asked Questions:

## Who can use the Simple Savings Card?

Everyone within your household can use the Simple Savings Card. Since the Simple Savings program is not insurance, there are no exclusions for pre-existing conditions. Everyone, regardless of pre-existing conditions, income or age, is eligible to use the Simple Savings Card.

## Can I use my Simple Savings card with my insurance card?

You cannot use both your insurance card and the Simple Savings Card at the same time. If you have an insurance plan that covers the drugs you are purchasing, we recommend you use your insurance plan. However, if you don't have insurance or if the drug you are purchasing is not covered by your insurance plan, we recommend you use the Simple Savings Card.

## What savings can I expect using the Simple Savings Card?

On average Simple Savings cardholders have saved 26% annually on their prescription purchases. Sometimes the savings are higher (60% or more) and sometimes the savings are lower. About 25% of the time the pharmacy has an equal or better price than the Simple Savings plan. If that is the case, you will always get the lowest price.

Because drug prices vary widely by pharmacy and prices for these drugs change regularly, we do not quote prices for any particular drug. However, on average our cardholders save 26%. Simply try your card and see the savings for yourself.

## Where can I use my Simple Savings Card?

There are over 60,000 pharmacies that accept the Simple Savings Card. See the partial list of participating pharmacies contained in this pamphlet or call 1-866-368-9807 to find a participating pharmacy near you.

## I had problems at my pharmacy using the card. What is the problem, and what do I need to do?

On a few rare occasions a pharmacist may have problems inputting your information into their computer system or connecting with our computer system. If they do, please make sure they call the phone number on the back of the card for assistance. Our pharmacy service representatives will be able to assist them whatever the problem may be. The number is 1-866-368-9807.

## How can you provide this card free?

Because of our size, we are able to negotiate lower prices with pharmaceutical companies. Simple Savings cardholders are saving 26% on average off the retail price. We get paid by the pharmaceutical companies when you use your card. We are like a giant discount buyers club. You save money. We both win!
